

COMPANY PROFILE

OUR MISSION

To be a valuable asset to the engineering industry, by providing superior industry related services to our clients, supported by the local and international experience of our management and the professionalism of our team members.

To ensure that our services always adhere to our stringent quality and safety standards, as well as environmental legislation, while offering cost-effective, practical and schedule-driven solutions to our clients.

OUR VISION

As a proudly South African company, our vision is to compete on an international level as an industry-leading and trusted service provider to the engineering industry.

COMPANY OVERVIEW

Established in 2015, uNyazi Sales & Services (Pty) Ltd is a proudly South African, 100% black-female-owned company with a current BBEEE Level 1 status. We pride ourselves on contributing to the growth of the South African economy by creating employment opportunities and supporting our local workforce and industry where possible.

To date, uNyazi's highly experienced management team acquired vast local and international experience while providing engineering services to the Oil and Gas, Power and Utility, Mining, Marine and Construction industries across the globe. Today, we are committed to becoming a leader in the maintenance, inspection and lifting industries in South Africa. As a pro-active service company, we keep ahead of our competitors through our innovative and resourceful approach.

Our priority is to provide experienced and technically related services to the South African Industrial, Oil and Gas, Power and Utility, Mining, Marine as well as Agriculture and Construction industries, by offering a full range of industrial project and maintenance related services, from start to finish.

With many years of experience in Corrosion Protection, Non-Destructive Testing, Lifting, Rope Access, Valves, Instrumentation, Pumps and related contracting projects, our team of seasoned managers, technicians and supervisors plan, mobilise and complete contracts with a minimum amount of downtime for our clients.

With offices in Cape Town and Durban, we have - and will - continuously invest in all the necessary staff, equipment and materials to execute all projects with world-class expertise.

SERVICES

INDUSTRIAL SERVICES

uNyazi offers integrated solutions to support all phases on maintenance, construction and shutdown projects. With many years of industry experience, we provide turnkey solutions with the ability to plan, mobilise and complete contracts within budget and minimum downtime. Our services include:

- Industrial Cleaning
- Hot and Cold Insulation
- Tank Cleaning
- UHP Water Jetting
- Abrasive Grit Blasting
- Sponge-Jet Blasting
- Corrosion Protection and Industrial Painting
- Asbestos Removal
- Concrete Rehabilitation
- Chemical Cleaning
- Rope Access
- Hydro Demolition
- Bolt Torqueing and Tensioning

SERVICES

INSPECTIONS & NON-DESTRUCTIVE TESTING

uNyazi also provides professional, value added and cost effective third party witness inspection and testing services. Our highly experienced teams are qualified in providing quality control, coating and related inspection for new build and maintenance surveys. Non-Destructive Testing (NDT) technicians are all qualified and certified in accordance with ASNT/SAQCC/PCN. The following disciplines are carried out by uNyazi certified technicians:

- Wall Thickness Gauging
- Ultrasonic Testing
- Magnetic Particle Inspection
- Liquid Penetrant Inspection
- Visual Inspection
- Hardness Testing
- Leak Testing
- Industrial Radiography
- Positive Material Identification
- Video Probe Inspection
- Drone Inspection and Surveys

VALVES & AUTOMATION

uNyazi will size, select, source and supply control valves, mechanical isolation valves, safety relief valves and actuators. We offer single source capability that also enables us to provide all styles of valves required for your process needs. Large projects or general maintenance is handled by our projects team and maintenance personnel. Our services include:

- Difficult applications due to erosion, corrosion, scale, pressures, temperatures, flow rates and advanced materials
- Process Optimisation and Debottlenecking
- Improving Reliability
- Increasing Performance
- Material Selection

SERVICES

PUMPS

uNyazi supplies pumps from a wide range of manufacturers to suit almost any fluid handling application. Our services include:

- Pump and System Design
- Custom Manufacturing
- Installation
- Supply and Distribution
- Supply ASIB approved pump sets to the fire industry
- Parts Supply

RIGGING & LIFTING

uNyazi is a specialist Work at Height service company. We offer expert specialist, structural rigging and engineering services for construction, maintenance and shutdown operations to all industries. We also provide independent and unbiased lifting machine inspectors for inspections, and load testing of lifting machines and lifting tackle as per the current OHS Act.

SERVICES

EQUIPMENT RENTAL

uNyazi offers Ultra High-Pressure water jetting equipment rental for surface preparation and cleaning at competitive and cost effective prices. This method is faster than conventional cleaning methods, and doesn't rely on the use of chemicals, solvents, caustic or abrasives.

ENGINEERING PROJECTS AND SERVICES

We offer turnkey solutions across a broad range of engineering disciplines including mechanical, electrical (LV MV), instrumentation, structural and civil engineering. Our services include:

- Project, Construction and Maintenance Management services
- Process Research and Development
- Plant Design and Layout
- Process and Manufacturing Plant Erection and Relocation
- Machine and Equipment Installation and Modification
- General Engineering Services

UNYAZI SHEQ POLICY

The management of uNyazi is committed to the following policy statement:

- We pledge to deliver quality work and to ensure the safety of our team. This will take precedence over everything we do.
- We believe that there isn't a job important enough to warrant the endangerment of people, the site or the environment.
- Our diligence relating to the prevention of accidents and/or incidents in the workplace is supported by our undertaking to avoid repeat accidents by addressing the root cause.
- We are dedicated to protecting the environment at all reasonable cost. We reuse, reduce, recycle.
- We endeavour to always understand and meet our clients' needs, by maintaining the highest possible standards obtainable in the industry when delivering a service. Through quality planning and the implementation of objectives, we are committed to doing it right from the onset.
- We honour the importance of training in the workplace by ensuring that all employees partake in a safety induction, and are skilled in quality and operating procedures.
- We recognise excellence in safety and discourage negative attitudes towards uNyazi's safety efforts.
- We encourage and insist that each employee shares our dedication to this SHEQ policy.

VALUES

Integrity, respect and our client-first approach are the guiding principles that form the foundation of uNyazi's company values and work ethic.
